ASSIGNMENT

WHEREAS, Avant Drug Delivery Systems, Inc., a California corporation, having offices at 3914 Kendall Street, San Diego, California 92109, ("Assignor"), has certain rights and title to those patents and patent applications set forth on the attached Schedule A (all such technology referred to herein as the "Technology/Intellectual Property"); and

WHEREAS, Avant Medical Corp., a California corporation having offices at 10225 Barnes Canyon Road, Suite A113, San Diego, California 92121, ("Assignee"), is desirous of acquiring an interest in the Technology/Intellectual Property:

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents does assign to Assignee all of Assignor's right, title and interest in and to the Technology/Intellectual Property and to all foreign counterparts (including patent, utility model and industrial designs), and all future improvements thereon, and in and to any Letters Patent and Registrations which may hereafter be granted on the same in the United States and all countries throughout the world; and further including: (i) all income, royalties, and damages now and hereafter due and/or payable to Assignor, including without limitation, damages and payments for past or future infringements and misappropriations thereof; (ii) all rights to sue for past, present and future infringements or misappropriations thereof; and (iii) all rights corresponding to any of the above throughout the world. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the Technology/Intellectual Property and any improvements, (b) execute, verify, acknowledge and deliver or cause to be delivered all such further papers, including patent applications and instruments of transfer and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the Technology/Intellectual Property and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.

IN TESTIMONY WHEREOF, Assignor has caused this Assignment to be duly executed by its duly authorized officer on the date set forth below.

DATED this 9th day of September, 2003.

ASSIGNMENT

We, John B. Slate, residing at 3914 Kendall Street, San Diego, California 92109; Michael W. Burk, residing at 1917 Redwing Street, San Marcos, California 92069; and Lanny A. Gorton, residing at 10302 Viacha Drive, San Diego, California 92124; have invented a method and apparatus entitled JET INJECTOR HAVING A MECHANISM FOR CREATING AIR-IN-TIP, hereinafter called the "invention."

Preferred embodiments of said invention are disclosed in a United States patent application executed heretofore by us and now identified as File No. 11102.5 of the law firm of Nydegger & Associates, 348 Olive Street, San Diego, California 92103, and filed in the United States Patent and Trademark Office as Serial No. 10/ 123,898 on April 15, ~~xxxx~~, 2002. (We hereby authorize the attorneys of Nydegger & Associates to insert said serial number and filing date when known.)

The Assignee, Avant Drug Delivery Systems, Inc., a corporation of the State of California, having a principal place of business at 3914 Kendall Street, San Diego, California 92109, desires to secure the entire right, title and interest in said invention.

For good and valuable consideration paid to us by the Assignee, the receipt and sufficiency of which we hereby acknowledge, we HEREBY ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in said invention in the above-identified United States patent application and in all divisions and continuations of said application, or reissues or extensions of Letters Patent or Patents granted thereon, and in all corresponding applications which may be filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

The right to file foreign patent applications on said invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

We hereby authorize and request the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, to issue any and all patents on said invention to the Assignee as the owner of the entire interest, for the sole use and behoof of the said Assignee, its successors, assigns and legal representatives.

We hereby agree, without further consideration and without expense to us, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of us to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all original, divisional, substitute, reissue, and other United States and foreign patent applications on said invention, and all lawful documents requested by the Assignee to further the prosecution of any of such patent applications.

Cooperation to the best of our ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement proceedings involving said invention.

This assignment and agreement shall be binding upon our heirs and legal representatives.
